

SANODAL® DEEP BLACK H3LW

ALUMINUM DYE

Sanodal® Deep Black H3LW paste is an extremely stable homogeneous dye recommended for exterior architectural applications as well as for coloring thin films and for situations such as coil coating where a short immersion time is required.

BENEFITS

- Excellent light- and weather fastness properties
- Suitable for outdoor and indoor applications
- Overdyeing by a subsequent electrolytic dyeing process possible
- Designed for many architectural needs
- short dyeing times possible
